

My Favorite Place.

One mile to the north of
(and) down on the right of the road
leading to Nemassay, you will
find a cedar drive leading to
a large two story house
painted white, surrounded by
large beautiful trees and lawn.
Just a few feet to the south
stands a tall windmill that
pumps water into a moss-
covered tank where the horses
and cows come to quench
their thirst. I love to watch
✓ them. Also the fish playing
in the water. When the
tank gets full it flows on

✓ down the hill and irrigates the
gardens.

To the north lies the wheat
fields that are very pretty in
the winter time.

To the east is the woods
I love to take a book and
stroll out and sit under a
✓ shade and study of other nature.
watch the cows as they feed
upon the grass, and the
squirrels as they hop from
limb to limb, and listen
to the song of the birds.

This place is my
✓ (P) home, and of other is the Queen.
